Cambios en Tello Driver

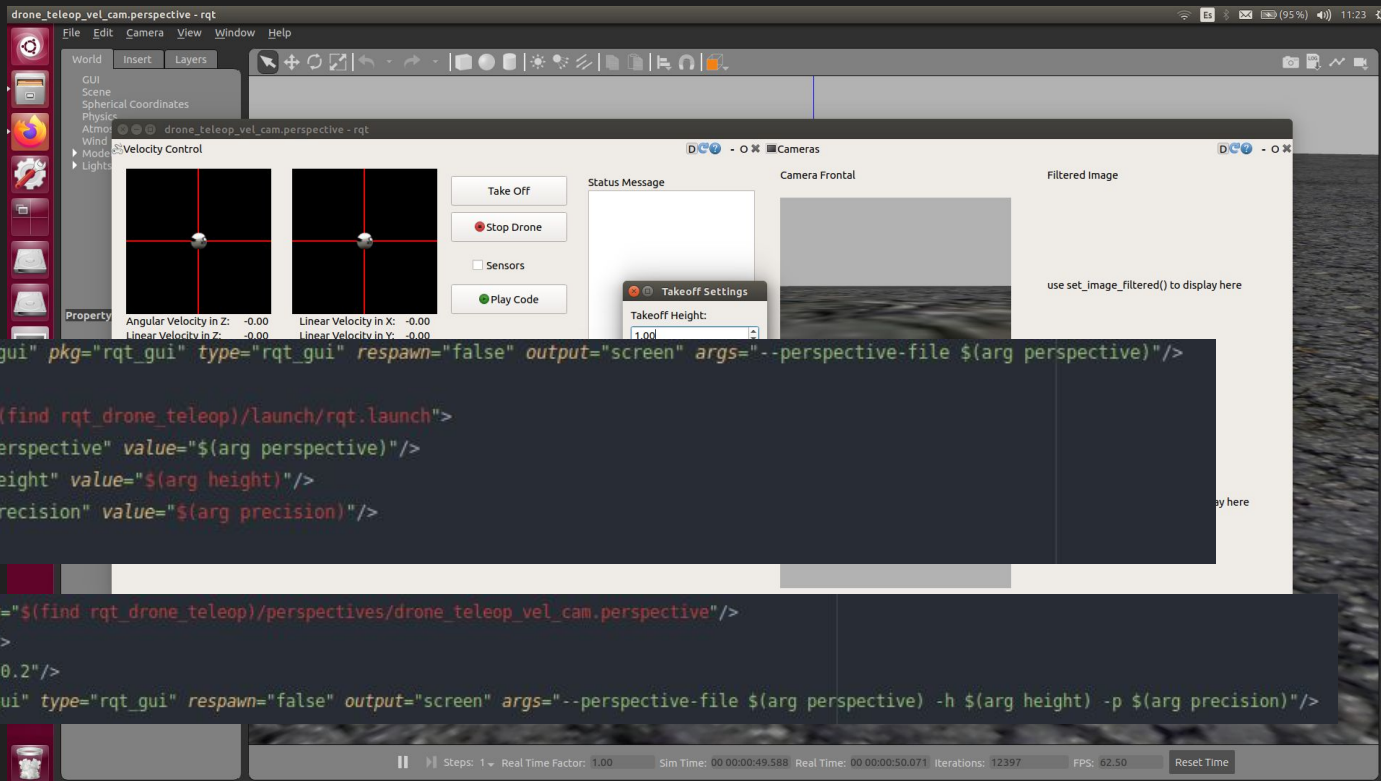

- **Filtering mask:** tres válidas: 3064 (posición), 1991 (velocidad), 1987 (despegue, cambio en altura)
- **Frame:** solo 21 por el momento
- **Rate:** 20 Hz

```
def process_mask(mask):  
    if mask == 3064: # xyz yaw  
        return mask  
    elif mask == 1991: # vx vy vz yaw_rate  
        return mask  
    elif mask == 1987: # vx vy vz z yaw_rate  
        return mask  
    else:  
        return 1991 # vx vy vz yaw_rate
```
